

ICPC Indonesia National Contest (INC) Rules

Introduction

ICPC Indonesia National Contest (INC) 2022 is a national programming contest that serves as the online preliminary round for Indonesian teams to advance to the 2022 ICPC Asia Jakarta Regional Contest.

Contest Rule

Overview

- The programming languages used are C/C++, Java, and Python.
- Teams are ranked according to:
 - a. Most number of problems solved.
 - b. If (a) ties, then by least total time.
 - c. If (a) and (b) ties, then by the earliest time of submission of the last ACCEPTED problem.
- Total time is the sum of the time consumed for each solved problem. It consists of time elapsed from the beginning of the contest to the first ACCEPTED solution, plus penalty for every non ACCEPTED solution for that problem.
- Any non ACCEPTED solutions other than COMPILER-ERROR will get a penalty of additional 20 minutes. There is no penalty for COMPILER-ERROR.

Pre Contest

- Contestants are not required to attend the practice session. However, the Committee suggests contestants to participate to become familiar with the contest environment.
- All contestants from the same team are not required to be at the same location during the practice session and the contest.
- Teams access the contest management system (DOMJudge) for the 2022 ICPC Indonesia National Contest (INC) 2022 through their designated self-prepared computer with internet access.
- The information regarding the contest management system (DOMJudge) will be sent before the practice session. If the team still has not received any email during the practice session, please contact us at lombati@binus.edu.

Contest Time

- The competition is scheduled for five hours. Committee has the authority to lengthen the contest in the event of unforeseen circumstances.
- The number of problems in INC 2022 will be around 10 to 13.
- There is no limitation about the number of computers each team can use to solve the problems in INC.
- There is no limitation about team reference. Each team can use references from any source.
- Each team must work independently without communicating with other teams. If a violation regarding this rule is found, both teams will be disqualified.
- There will be no scoreboard freeze for INC 2022.
- Clarification will always be open during the contest time. Contestants can ask anything related to the problem there.

Post Contest

- The top 50 teams in INC 2022 will be announced several days after the contest. The committee will do some validity check to guarantee a fair competition from the contestants.
- Teams that will advance to the 2022 ICPC Asia Jakarta Regional Contest are:
 - Top 50 teams in INC 2022
 - Top 5 teams in COMPFEST 14
 - Top 5 teams in Ideafuse 2022
 - Additionally, the committee may also give golden tickets to the teams outside the top 50 teams in INC 2022.

FAQ

If a team's network connection is disconnected, can the team re-enter the contest?

- Yes, but there is no extra time.
