

The 2025 ICPC Asia Jakarta Regional Contest Rules

The Problems

The teams will compete to solve the given problems (typically 10 to 14 problems) in 5 hours of contest time.

Each problem has the following components:

- Problem description – the description will be given in English.
- Input specification – details on the input format, including the input constraint.
- Output specification – details on the output format.
- Sample input/output – an explanation for the samples might be provided, optionally.

Each problem has a time-limit and memory-limit constraint for its solution, i.e. the solution should run within the allowed time-limit and memory-limit to produce the correct output. The time limit and memory limit will be broadcasted at the beginning of the contest through the contest management system (DOMjudge).

You may find the problems from the previous ICPC as examples in [TLX \(https://tlx.toki.id/problems/problemsets?archive=icpc\)](https://tlx.toki.id/problems/problemsets?archive=icpc).

During the contest, teams may ask for clarifications about the problems using the DOMjudge. If the judges agree that an ambiguity or error exists, a clarification will be issued to all contestants. Clarification will always be open during the contest time.

Solutions/Submissions

Each team should submit their solution (source code) through the contest management system (DOMjudge) anytime during the contest time.

A problem is considered **solved** by the team if a verdict of "**CORRECT**" is given to the corresponding submission by DOMjudge.

Each submission may get one of these responses from DOMjudge:

- **CORRECT** - the solution produced the correct output within the time and memory limit without any error. The corresponding problem is considered solved.
- **WRONG-ANSWER** - the solution did not produce the correct output.
- **RUN-ERROR** - the solution crashed (runtime-error) when processing the test data or the solution consumed more memory than the allowed memory limit for the problem (Memory Limit Exceeded).
- **TIMELIMIT** - the solution took more time to produce the output than the allowed time limit for that problem.
- **NO-OUTPUT** - the solution produced no output.
- **COMPILER-ERROR** - the solution could not be compiled.

No other details will be given for each response.

Fair Competition

A team may be **disqualified** if the team is found to be cheating. Cheating includes any attempt or activity by an individual, group, team members, and/or coach, to enhance or diminish their performance or that of other teams using methods that are unfair to the contest. This includes but is not limited to efforts such as:

- submitting a solution that is not their own, including a solution written by generative AI;
- communication with any people other than team members and the judges (through the clarification system) during the contest;
- hacking (successful or not) the contest management system;
- distracting behaviour, or dislodging extension cords.

All teams should uphold the sportsmanship and the spirit of fair competition.

Ranks

Teams are ranked according to the most problems solved. Teams who solve the same number of problems are ranked by the least total time. The total time is the sum of the time consumed for each solved problem (in minutes). The time consumed for a solved problem is the time elapsed from the beginning of the contest to the submission of the first correct solution plus 20 penalty minutes for every previously incorrect solution for that problem. Submissions with a COMPILE-ERROR verdict will not be penalized.

Prizes

The following prizes are given for The 2025 ICPC Asia Jakarta Regional Contest:

- Merch for the first solvers of each problem.
- Prizes for the highest ranked national teams.
- Prizes for the highest ranked teams from the highest ranked institutions. The rank of institutions are the ranks of the highest ranked team of each institution.
- Medals (3 Golds, 4 Silvers, 5 Bronzes) for the highest ranked teams.

Programming Languages

The supported programming languages for The 2025 ICPC Asia Jakarta Regional Contest are:

- C
- C++23
- Java
- Python 3
- Kotlin (experimental)

Note that a Python solution can be much slower compared to the other two programming languages. We **do not** guarantee all the problems can be solved with the time-limit constraint with Python or Java even though the same algorithm is being used. Nevertheless, you may use Python or Java as you see fit.

At the onsite contest, each contestant's PC is installed with:

- C/C++23: g++ 14.2.0
- Java: javac 17.0.16
- Python: PyPy 7.3.15 (Python 3.9.18)
- Kotlin: kotlinc-jvm 1.7.21 (JRE 17.0.16+8-Ubuntu-0ubuntu124.04.1)

The server/grader is installed with:

- C/C++23: g++ (Ubuntu 14.2.0-4ubuntu2~24.04) 14.2.0
- Java: javac 21.0.8
- Python 3: PyPy 7.3.15 (Python 3.9.18)
- Kotlin: kotlinc-jvm 1.9.24 (JRE 21.0.8+9-Ubuntu-0ubuntu124.04.1)

The compile/run options used for each of the languages are:

- **C:** `-x c -Wall -static -pipe -DONLINE_JUDGE -DDOMJUDGE -lm`
- **C++:** `-x c++ -std=c++23 -Wall -O2 -static -pipe -DONLINE_JUDGE -DDOMJUDGE`
- **Java:** `-XX:+UseSerialGC -Xss64m -Xms1920m -Xmx1920m -DONLINE_JUDGE -DDOMJUDGE`
- **Kotlin:** `-J-XX:+UseSerialGC -J-Xss64k -J-Xms1920k -J-Xmx1920k -J-DONLINE_JUDGE -J-DDOMJUDGE`

The compilers and the execution environments are also available on your workstation as the following commands:

- **C:** `compilegcc / runc`
- **C++:** `compileg++ / runcpp`
- **Java:** `compilejava / runjava`
- **Python 3:** `compilepython3 / runpython3`
- **Kotlin:** `compilekotlin / runkotlin`

You are free to execute (test) your programs on your machine using any method you choose.

Contest Environment

Each team will compete with a PC with the following specifications.

Operating System	: Ubuntu 24.04.1
Hardware Specification	: Tiny 1L RPL-H i5-13420H LSSC Core i5-13420H 2.1G 8C 12T NP 8GB DDR4-3200MHz (SODIMM) 1 TB SSD M.2 2280 PCIe Gen4 TLC Opal

IDE and Editor : Eclipse 2025-09 (4.37.0)
IntelliJ IDEA 2025.2.4
PyCharm 2025.2.4
Visual Studio Code 1.105.1
Geany 2.0
Neovim v0.9.5
CLion 2025.2.4
Sublime Text

Contest Management System : DOMjudge 9.0

All teams will have the same PC specification. Offline reference manuals for all the available programming languages are provided in the PC.

Team Notebook & Additional Items

Each team may bring a reference material (also called *team notebook*) to the contest with the following limitation.

- It may contain up to 25 pages of reference materials on letter-size or A4-size paper; page number should be printed/written on each page.
- Team name and university name should be printed/written on the top-right of the first page.
- It may contain code listings, algorithms, hints, or any other necessary notes.
- At most three exact copies per team.
- Text and illustrations must be readable by a person with correctable eyesight without magnification from a distance of 0.5 (half) meters.

Each team may also bring the following items.

- At most 5 blank papers/graph papers (the committee will provide blank papers)
- Stationery, e.g., pen, pencil, eraser, ruler, etc.
- English dictionary (only printed; no electronic version is allowed).
- Plush dolls/stuffed animals (as long as it will not disturb other teams).

Please bring the team notebook and additional items (if any) DURING THE PRACTICE SESSION. Then, leave the items on your desk. All those items are subject to judges' inspection before the contest. No other materials are allowed to be in the contestant's area.

Additional blank papers will be provided to each team.

Teams are **not allowed** to bring the following items to the contest area.

- Any digital materials, e.g., e-books, softcopy codes, etc.
- Any digital devices, e.g., flash disks, external HDD, etc.
- Any electronic devices, e.g., mobile phone, smartphone, smartwatch, calculator, laptop, etc.

Teams are **NOT ALLOWED** to substitute the provided keyboard with their own.

Attendance

All team members must attend all required events, particularly, the Onsite Registration, Opening Ceremony, Practice/Trial Session, Contest Proper, and Closing Ceremony. Failure to attend any required event will result in disqualification and forfeiture of prizes.

Onsite General Rules

Due to the general policy at BINUS University, please make sure you comply with the following rules when visiting BINUS University:

- You are not allowed to wear shorts or short skirts.
- You are not allowed to wear sandals.

Contestants and coaches should wear the contest T-shirt as an outer-most garment at all times. Any additional clothing must be worn underneath the contest T-shirt. Contest T-shirts will be distributed on the onsite registration.
